Subject: RFS2 now published and we have a citation

RFS2 was published today (hooray!) so we now have a citation for it: 75 FR 14670, March 26, 2010.

Cay/Molly/Ken/Ari/John, if we have anything in the LD GHG rule waiting for this citation, it should be added now (though I'm not sure we do; in several places we just cited the RIA).

I'm not sure if we need to docket it, since it's in the FR. We do refer to it in the Response to Comments.

I'm attaching it here in case we do need to docket it.
